

John Pickersgill

After progressing through the local education system I have had a career working within the IT and telecoms business across several industry segments, including education. I have worked with children of all ages as a qualified rugby and football coach and I am always surprised by the challenges and learning that engaging with young people can bring. I am now looking forward to being able to utilise the wider skills I have developed over the years and work with the other Governors to contribute to the ongoing success of the school.

After having had the experience of working in many parts of the world I am particularly keen on helping expand the aspirations of local children through helping to establish a supportive educational environment that enables them to achieve their objectives. I joined the Governing body at an exciting time for the school and I hope that I can contribute to a positive future.
